Education

B.Tech (CSE) VIT Bhopal University	June 2022 – 2026 CGPA: 7.70/10
Class XII Loyola High School (CBSE)	May 2020 78.4%
Class X Don Bosco Academy (ICSE)	May 2018 87.4%

Technical Skills

- Languages: C++ (DSA Specialist), Python, Java, JavaScript, Apex, SOQL, Shell Scripting, Data Structures & Algorithms, OOP
- Cloud & DevOps: AWS, Salesforce, Docker, Kubernetes (K8s), CI/CD, Linux, n8n Automation
- Web, APIs & Data: React.js, Node.js, Express.js, Lightning Web Components (LWC), RESTful APIs, SQL, PostgreSQL, MySQL, MongoDB, HTML/CSS/Tailwind, JWT
- Other: Git, GitHub, Machine Learning (Scikit-learn, pandas, numpy), Blockchain (Solidity)

Academic Projects

Custom Salesforce Lead Management & Automation System <i>Apex, LWC, SOQL, Triggers, Validation Rules</i> • Developed a robust CRM solution using Apex and Lightning Web Components (LWC) to automate sales workflows. • Implemented Triggers, Validation Rules, and SOQL queries to ensure data integrity and system performance. • Managed user permissions and security settings using Profiles and Permission Sets.	April 2025
Developer Portfolio Website <i>React.js, CSS, JavaScript</i> • Built and deployed a fully responsive portfolio website using React, showcasing 5+ projects, technical skills, and achievements. • Implemented modular and reusable components, reducing development time for future updates by 30%. • Enhanced user experience by incorporating project galleries and interactive navigation, improving visitor engagement by 50%.	September 2024
Scalable Customer Analytics API <i>Node.js, PostgreSQL, RESTful APIs, Docker</i> • Architected a backend REST API system to process and serve an open-source e-commerce database containing over 100,000 customer and transaction records. • Optimized database performance in PostgreSQL by implementing advanced indexing and query restructuring, reducing data retrieval times for complex joins by 40%. • Developed paginated and filterable API endpoints to handle large data payloads efficiently without overloading server memory. • Containerized the application and database utilizing Docker for higher consistency.	March 2026
Full-Stack Task Management Dashboard <i>React.js, Node.js, Express, PostgreSQL</i> • Developed a full-stack web application to track personal tasks and project deadlines using a React frontend and a Node.js backend. • Implemented secure user authentication and authorization workflows utilizing JSON Web Tokens (JWT) for secure session management. • Designed a responsive user interface with Tailwind CSS, ensuring seamless state management across components for real-time updates. • Integrated RESTful APIs to perform CRUD operations, persistently storing user data in a structured PostgreSQL database.	January 2026

Certifications & Training

- **Salesforce Developer Internship Program** – Ethnus
- **AWS Certified Cloud Practitioner** – Amazon Web Services (AWS)
- **Full Stack MERN Developer Program (MongoDB Partnered)** – SmartInternz
- The Bits and Bytes of Computer Networking, Coursera - Google
- Cloud Computing, NPTEL - IIT Kharagpur (Elite + Silver)
- Mastering Data Structures & Algorithms using C and C++ – Udemy

Achievements & Leadership

- Core Member, SDC Club(Software Development Club): Organised and executed successful events as part of the SDC Club, including three hackathons, attracting 100+ participants and fostering collaboration among members, significantly enhancing the club’s visibility and engagement within the university.

Extracurricular

- Participant, AdvITYa Chess Tournament: Ranked in the top 25 among 300+ participants at an intra-college chess tournament.
- Solved over 700+ questions on LeetCode, Geeksforgeeks and CodeForce.

Languages: English, Hindi.
